Reaver11 wrote on Thu, 26 June 2008 19:18 Can you export it as .3ds or .gmax file because I use renx so I cant open .max files.

It's gonna be something lol.

I can't use real go carts though sadly =(, because as far as I know of, ren don't show your character actually sitting in the seat on the steering wheel lol.

So it's an enclosed go-cart lmao.

So I guess you could call it Micro-machines lol.

But the mods gonna be like a Mario cart like deathmatch thingy LOL.

And as you can tell, I am not a skinner what so ever.
