It keeps the fairness introduced by the pointsfix (IE you get more for doing more damage) but you can get similar ot the same kinds of money flows as without the pointsfix (obviously that would be up to teh server owners).

It might need a little fine tweaking though. Like ahving separate multipliers for vehicles/infantry/buildings (getting alot more credits for shooting/repairing a building sounds like a bad plan IMO), and maybe even for groups like infantry vs vehicles, vehicles vs infantry, infantry vs infantry, vehicles vs vehicles and vehicles/infantry vs buildings.

But then again thats what a beta test is for.
Well, indeed, but then at least certain people should listen to the idea, and be willing to try it. That seems to be most of the problem here.
Not having the will to even try something else will be impossible to fix.
