As for Demolition Man, I don't think he hates the US he is just trying to anger us, so I don't respect his opinion. This site is for you! <http://www.multiplayercheats.net/> I sure you live in one hell of a country. What makes you think I only get my news from one source, I try to get news from both sides and from different networks, then after all that I make my own decision after seeing them all. If you don't like this topic GET THE HELL OUTTA HERE
