Alright, well with renguard not running as an administrator, see below. I set it to run as administrator and then it works... I load renguard and I get into renegade and it's all kosher right? WRONG. Resolution is all fucked up... 800x600? I'm running 1280x1024 and it's impossible to play. When I play running game2.exe, it works fine, all my settings work. Suggestions?
