After discussing this with Crimson it was decided we will follow the public opinion and permanently ban troopr02 from the Renegade forums. I hope troopr02 can respect this decision, made by us and supported by the community as clearly shown in this poll.

I wish him the best of luck for the future and I hope he'll do some self analyzing of his behaviour.

Thank you very much, it's about time we ban one of the trolls. Let this been a warning to all of the others
