We had our first taste of these two hacks last night and beside using ????????? to make sure they log-on to the same team and their incredible abilities to snipe with GDI soldier ...i don't know.

It was the first time I have ever seen someone change sides in a ladder game. And it was the first time I have ever seen a Soldier take down my husband with one shot in a crouched position from across a Tiberian field.

3 Or 4 minutes into the game he had 49 k/3 d and only 10 of them were with a sniper and he never really left the base.

I know it cant be truebut it ruined a 60 man server last night.

Play with these guys (ON the OPPOSITE team) and tell me what you think.
