so what would you call your perfect "team mate"?

its unbelievable that people are still discussing the word "pro".

ok then were all newbies and we dont know how to play, or how to cooperate, huh? that doesnt make any sense.

candy wrote on Wed, 01 October 2008 13:43in my eyes the people that are 'pro' are the people who at the start say: 'i'll be a tech for ur arty'
or who don't hide in the veh u are repairing and try and save it when an apache is above their head.
the people who say: 'i'm pro u are noob so u will be my tech' don't deserve the title 'pro'.

i want more responses from candy's point of view. because i believe this idea will work but we must figure it out how to bring it to life.
