@Distrbd21...I'm watching you.

EDIT: CPUKiller is my brother, he was never involved with Renegade but coded RenHelp.net for me.

When do you get on msn man? you said you would help me with that one Tut on Renegade Fonts.

Sorry i watch V for Vendetta and loved it so i got some pic's mine is more far away tho so.

And please don't make the site where it's hard to load i have problems now don't need anymore.

@ iron it take's me 10 to 20 mins to load on forums

Are you going to put all the Tut's that are already on the site on the forum?

And i think you should change the forum dis from mapping ren apb reborn to Mapping & Modding
