Like 75% of you havnt tried it on multilayer practice, just to see what it can do. 6 months or so ago i got my mate to join a server which i made with a password, so i could see what it does to learn from it. From learning what it does ive caught alot of people using it. I even tried using DH hacks on my own server to test if biatch was working. I dont see the big deal tbh. Do half you which are mods ban for evidence on other servers, no you dont. So go ban me too

Use your head buddy, If he is so used to having that little *cheat name removed*1.3.3 text up in the corner to post a screen shot with it, without realizing anything is wrong it, means he uses it a lot.

GG and nice ban. no need for retards who need aid to be able to aim on a 7 year old arcade shooter.
