This is a plug-in designed to work with SSGM2.02 for cnc_renegade.
It was written by reborn from MP-Gaming.COM (fm_reborn@hotmail.com).

This is the first release version and probably has some bugs in it, with feedback I will fix bugs found.

This plug-in allows players to donate there chosen amount of credits to there team mates in one command. Players can use the following to do this:

```
tdonate
!TDONATE
!Tdonate
!TeamDonate
!teamdonate
!TD
!td
!TEAMDONATE
```

I don't run a renegade server, I have no real use for this plug-in and have made it for the sole reason to help other server owners.

If you use this plug-in and modify it, if you see a problem, either tell me, or preferably submit code. Don't be selfish, release the source code.

I believe it is only with this attitude that Renegade will continue to keep it's diminishing player base.

To use this plug-in, refer to SSGM.ini in your SSGM2.02 server folder.

You'll need to add the .dll to the server folder, and make an entry in the [Plugins] section, mine looks like this:

```
[Plugins]
01=teamdonate
```

I urge you visit my forums and my site @ MP-Gaming.COM. I would also like to direct you to Black-Cell.NET. There is a history of this game there that most people are oblivious to, and without Black-Cell, none of the feature rich servers we have today would be here. They also have a renegade server back up and running. Be sure to find it in the WOL server listings and join. It's hella fun.
