By the way, I'm assembling a crew to go hijack a few ships a month and ransom them off for epic profit. No sailing date has been set for now but I'm still short a few crewmembers- any takers?

I'd join, but being on a ship populated only with tanned, hairy chested dudes in shorts and t-shirts and funny hats would only mean that there'd be a lot of buttpiracy going on.

isnt that a good reason to go for it?

consider me in!
