venom530 wrote on Sat, 06 June 2009 21:51dude, i highly sugest u get windows xp, because vista is brutal. all new things like vista, or even xbox 360, shouldn't be bought until they have been out for a few years so that the companies can sort out any issues. by the way, its worth getting xp to play renegade, itz sick.

Vista is not the problem.

@Shidaro:
Either your disk is dirty/scratched/otherwise unusable, or your disk drive is dirty/otherwise unusable. If you recently purchased the disk I'd recommend taking it back to the retailer and having it replaced, otherwise there are other ways *coughcough* of acquiring the disk and installing it with your serial number.
