Dover wrote on Mon, 22 June 2009 19:51The program for building Flash files is called "Flash". I'm not sure what the current version is, but I learned on Flash 5 seven years ago or so. No doubt there have been several advances since.
Flash MX 2004 is what I learned last year in some web pages class. it's a pretty good program

The current version is CS4 I think.
