You still don't know how new to this you are. Let me help you out here since you can't figure it out for yourself. Check out this post by di3hardnl. It's one of the many examples of Scrin.

You can say what you want, but scrin is a moron. I am releasing his stuff because he needs to realise what a fool he is. He is talking alot requested.

Recently I lost a couple of files which I made for scrin, but then he refuses to give them to me, simply because I didn't make that request from him. so 😊
