Just so we're on the same page, you do know that Low Orbital Ion Cannon is a DDOS client, right? Surely, you're not calling on the Renegade community to LOIC queenhunter, are you? If this is the case, I will most certainly -not- be participating!

Also, brb chargin' mah lazah.

I'm aware what LOIC is. I didn't posted it because of me planning something against Queenhunter.

Basically, this forum is involved around C&C Renegade. Renegade is a Command a Conquer game. If his sue fails (pretty sure it will), he could always try the GDI Ion Cannon against us (Not the real DoS client), something which fits in the theme of Command & Conquer.

I actually tried to get the Nod Nuke (Nod fan myself), but there wasn't anything really good on the internet. I liked the LOIC slogan, so I just posted a picture of it instead. I didn't posted a picture of the client on purpose.

Ah. I see. That's what I figured.

Also, brb, not chargin' mah lazah.

raven wrote on Fri, 28 August 2009 13:19DoS client, actually. DDoS would be multiple

Technically you're right, but it's meant to be used in unison with other LOIC users, thus the extra D.
