jonwil wrote on Mon, 31 August 2009 07:36Decal limit has been 100% busted and mods can set it to whatever they like via a hud.ini keyword (APB has it set to 1024 right now)  
Since its in hud.ini and not tt.ini (and since its not cheat sensitive), its not cheat checked.

Holy crap nice!

So it wasn't such a hard/painful thing to do afterall?
