Nightma12 wrote on Sun, 30 August 2009 18:24I just bought this game

In future releases.. (ovb not till everything else is done) - is it possible to add all the mutant and hidden W3Ds from single player etc to the mod too? Would be great for server side mods on this game
Nightma12, you know that in this game you can have the player download skins, models, maps and to some extend mods?
This would for your purpose not be neccessary then, it would only be "funny".
