Under is up now. Had a few problems, and mainly lazyness which stopped me releasing this. Anyways.

Tested online, there was no need to add the light maps to the mix as they are in always.dat

Important side note: As the map used to be snow, when you drive over certain areas and shoot at certain areas it appears to be snow. Now I have made a pack which changes this, but it changes it on ALL maps, so im releasing it separte from my map here.
