DeadSpace  
Unreal 2 (Really good singleplayer but no multiplayer, which is probably why it got so overlooked, but I enjoyed it alot)  
HalfLife 2  
HL2 EP.2 (one was okay but defiantly didn't meet up to episode two and didn't beat the original two)  
Oblivion  
Fallout 3 (Oblivion still offers more mods)  
Halo 1,2,3  
Homeworld  
Homeworld Cataclysm  
C&C games... the Westwood produced ones

DeadSpace PWNS! That was such a good game. Bioshock is pretty similar, but with a better story, imo.

Oblivion, Fallout, Halo's (Just got ODST yesterday!), are all great as well (Though Oblivion and Fallout are in a whole different level than the Halo's).

I dunno why so many ppl keep recommending HalfLife 2, for me, the game was barely above par. Not much of a story, graphics were meh, resolution gave me a headache, combat was nothing special. I did enjoy the Ravenholm mission and infiltrating the Citadel though, but fun moments like that were few and far between.
