[NEFobby[GEN] wrote on Mon, 05 October 2009 19:23]UT3 requires all people in a server to play with the same version of the game. So when you join a Renegade X or UT3 server, all skins, model replacements, and sound replacements, are reverted to the originals. Think of it like sort of anti-cheat and anti-advantage mechanism.

Yeah, if you want to cheat/have an advantage just turn off grass, knock up your field of view, turn off bloom, and anything else you see fit in order to make it easier to see your hiding enemies.
