Staring:

spoon as Hitler

the anti pointfix crowd as the jews and gypsies

the renegade forums and TT as the guillable public

jelly as rohm, an old friend spoon must kill off to achieve final domination.

that's interesting, because right now i'm the one arguing AGAINST a undeserved totalitarian dictatorship, whereas the anti-pointsfix crowd and the jelly community (not much of a difference) are violently defending it.

as for me killing jelly off, well, you were never that bright so i can't claim to be surprised you've got it exactly upside down yet again. me criticising jelly's monopoly on the game listings is no less valid than jelly criticising TT if they wanted to make the pointsfix compulsory.
