But as far as I can see, there's not much to be done about it at this point; TT's listing changes should solve it.

I'm glad we can agree.

I have loved this game with the points system it has always had, and I do not think it should be changed this late in the game. However, I understand that it is in fact bugged and flawed. Now the question of whether I give a shit is a whole different story, albeit a short one: hell no.

That doesn't seem to be a good enough reason to defend the bugged, flawed pointsystem, but since you don't give a shit, I suppose it doesn't really matter.

Dover, stop responding to him at all please.

I can promise I'll make a good-faith effort.
