Goztow wrote on Thu, 29 October 2009 08:39I agree with halo on the bot topic. It's basically a player that logs in to xwis, no?

I must say that I do put trust in Dave Anderson. Having him confirm this means something to me .
Now if only Seye would have a look too, then I'd use it (yes, I'm quite paranoiac on the net...).
I think that this case justifies that. Because he *could* just be harvesting serials, if he wanted.
