look through that it should have some stuff you are looking for.

http://renegadehelp.net/index.php?act=tutorials&id=286

if you can't find what your looking for in the maps part then let me know.

P.S. look at all of the tuts in the maps section one of them might tell you how.

and here is a pic of where to find the trees.

And if you still don't know where i made it better.
