On a serious note, if he gets online then i cant get online, i dont even have my serial code anymore since i installed renegade.

2 people can be online at the same time with same serial... I was doing it a few hours ago. I have had 3 people online with my serial.

As for the second comment... looking for "glitches" that sounds like some good fair gameplay, especially to use in cw.

Thirdly, I think there is a way to find your serial on your pc.
