You should put both the 1st and 3rd person versions together in 1 pack next time

That was more of a decision based on the fact i didn't think the third person ones turned out that good... glad i released them anyway

I think they both look great, it is just based on the fact that if i'm using a skin then I want it to be the same in both 1st and 3rd person.

When you are using a weapon skin then it will be a bit strange when it changes colour when you switch to 1st person, thats all.
