CarrierII wrote on Tue, 04 May 2010 10:46 That's only relevant if you've had sex with anyone who's infected... it annoys me that they don't recognise this.

Not entirely true, i asked about it when i went for my annual HIV tests and they said "Because of your homosexuality, you are unable to give any blood or organs".

Even on the letter (my partner is a organ donor, well, before he was gay) it does state that you cannot give blood or organs if you are gay...

This does also carry on to homosexual women too.
