It's just a fucking HUD.

I must say, i agree with that, its easy to find, and he removed every link, as i can see, so i wouldnt give 30days for that! a 10day maximum i would say. Why censure everyrthing with BB? Some say cheat, some say advantage, but in the end, its hard to remove, but everyone can get it. So unless TT got a fix to remove BB, you really cant stop it. Not now.
