Subject: Register Serial to See Buddy List?
Posted by halo2pac on Mon, 14 Jun 2010 04:23:31 GMT

I log into xwis via renegade today... and I notice it telling me:

Register your Serials at xwis.net/control_panel/ to use your buddy list.

Why is this?

Also I am getting invalid serial messages from renebuddy, but thats do to getting "invalid serial" from xwis... and I only use valid serials.
