SniperKitten wrote on Fri, 25 June 2010 21:46i just put resurrection, on my server, and when ever i join my server or anyone, the Renegade Master Server Says

Player Sbhkitten joing the game
Host: Player 'Sbhkitten" uses Renegade Resurrection 1.1.2 <download at www.icefinch.net>
<Game> state change to interrupted'.
Host: The game was interrupted because there are no enemies.

So with this, do i have to wait for someone eles to join on the enemy team to start playing?
because i do have the 1 Person Server.dat Playable download. Please help.
Are you sure the modified server.dat is compatible with RR?
