Minimum System Requirements

- Windows XP SP2 or Windows Vista
- 2.0+ GHZ Single Core Processor
- 512 Mbytes of System RAM
- NVIDIA 6200+ or ATI Radeon 9600+ Video Card
- 8 GB of Free Hard Drive Space

From having played ut3, I can tell you it would be pretty much unplayable with that hardware (lol @ 512MB Ram with Windows Vista). You need 2Ghz Dual core with 2-4GB MINIMUM and atleast a 7800GT to run it in any decent state. But if your machine doesn't even meet this minimum, you should consider going to console gaming anyway.
