Yes, I am the crazy guy who jumps out the window with either a grenade launcher or a flamer and starts shooting at the 15+ tanks surrounding the last remaining building on our team.

Is it effective?
Depends on how many times I'm able to jump out the window without eating a rocket or a tank shell...

Does it save the building?
Half the time

Is it fun?
HELL YES!!!1!!!!!!

What's the best part?
Flamers and Grenediers are FREE! ^^
