LOL about time you caught me..... It is truely sad and kinda well umm. sad that will be yet again. I move soon and will even be in differant state.

Tips on catching bigbodys w/o fraps you fucking retards... when haveing them shoot in angle... Have the person get a chain gun and start shooting around the hip area and shot cant happen and when they do it's a glitch in the hack have them shoot you in the head. you have used big bodys before and well you fail. took you a year. seriously a fucking retard or you never would of.. Not anyone here atleast.. This game is dieing fast so i will be day in the ref. Wilo should of known this but shows the lack of brainpower in this country.

So MANY of you i played and used its not even fucking funny..

This post will be deleted because wilo/troy or even ---- jade that has no life that is a retard. fuck off you were played for a year.. now eat it...

Justin

Thanks
