It's probably my terrible shitty head set speakers, but it sounded a bit "tinny". Again, it's probably due to my head set...

I kinda liked it, it felt like it was building up to a climax that never seemed to happen, but it's easy to listen to.

The first link you posted on here was pretty cool, I think I prefer the ones you make that are based on popular music, or have vocals. The thing about music is you're never going to please everyone.
