I believe religion explains how we came to be, at its core. But then it has been twisted, and used to control, when in reality, I think it should liberate us, and instill a unifying commonality amongst humanity.

Many creation stories, ranging from aboriginal to Abrahamic share so many similarities, that I am inclined to think there is a supreme being or creator out there. Once interstellar is perfected, I'm sure we'll find 'God,' or perhaps, 'God' is when humanity finally finds itself.
