John Shaft Jr.cowmisfitxC4pRoX^^..... I could think of a lot of hip-hop songs that are just plain funny to listen to... one of them is "what's your fantasy" by Ludacris... you should try listening to some songs before you judge the whole shit

1. I HAVE LISTEND TO SOME SONGS MY FREINDS LISTEN TO IT ITS ON EVERY RADIO CHANNLE YOU TURN TO ITS ALL THEY PLAY AT SCHOOL DANCES I HAVE LISTEND TO A LOT OF IT AND YOU ARE CORRECT LET ME CORRECT MY SELF 98% OF RAP MUSIC IS LIKE THAT AND BY THE WAY I FIND ALL OF IT FUNNY. YET I RESPECT UR OPINION MAN

1. Its like I said, how the heck are you going to judge something just by hearing like like a couple of songs. 98% of Rap is not like that. I see that mostly all the Rap you hear must be that gansta rap. Its not the Hip Hop that I listen to.

2. I'm not saying you have to like that certain type of music. Cause by all means you like and dislike any music you want to. Cause thats what makes you well you. But you don't have to go bash it just because you do not like it. Cause thats what it seems like your doing.

i like the music i dont really care what they say
