cowmisfit True not ALL rap music talks like that i know that but you and i both know that is not what most people who listen to it are listening too... they are not listeing to R&B or soul or what ever you wnna call it i personlly dont mind some R&B such as marvin gay or oldies like the temtations or BB KING... BUT what they are listen to is eminem ludicrist and 50 cent and that garbage and you seeming to be a smart person knows that. I am judging the rap gene ... and yes becace i do not like them.... if you disagree with somethng such as if you hate the kind of music i listen too doesnt that mean you dont like it? I respect your opinion...

True, but see I like all types of music. Doesn't matter if its Rock, Rap, Hip Hop, 80's, 70's, Disoc, etc. I like them all. Hell I have music dated back to the 1950's.

My whole point of what I'm trying to say it do not say it sucks just because you do not like it. Cause its very disrepectful to the people that that make it and listen to it. Seriuosly I mean they be some artist I may bot like that my friends like. For example, One of my friends like N' Sync. Now me, I do not like N' Sync. Now I'll say something like, "I like don't like N'Sync" but I will not say they suck just because I do not like them. Cause I know many other people like them and I repsect their opinons on why they like them.

See i get tried of people saying, "Rap sucks" or "Rock sucks" just because they do not like that type of music. Its ok for you not to like it but you have to say it sucks now do you. I mean I have the same respect to say the stuff you listen to does not suck you can show me the same respect too.
