Why dont you let whoever is DJing pick the music

Set up rules like No F n S word in the songs

Whatever the DJ wants to play is what plays as long as it keeps within the rules

Take turns with the DJ so people that like music from this century dont always have to listen to the
crap ack likes

I would love to DJ i dont listen to gangsta rap but i dont listen to classical crap
Plus u would talk on the radio like a normal DJ.

flame on :rolleyes:
