when i leave the game it sits there for like 10 seconds with a black screen and then everything is normal, but new problem

i exited a vehicle with a raveshaw and fired; i then dropped to the ground dead, and the server cited that i had killed myself
there was no c4 going off whatsoever and it couldn't have been a neutral shell to my own head because the tank neither fired nor was facing in the right direction

i have never, ever had that happen in all my years of Renegade
