iRANian wrote on Sun, 01 April 2012 10:30 BHS already controls the Renegade part of XWIS pretty much. Hosting in GameSpy mode isn't that smart as the FDS has special exceptions for GameSpy mode and that might cause unforeseen issues. I think putting the FDS in LAN mode with some third party software to broadcast to GSA should work just fine.

Maybe I'm wrong, but last I heard LAN mode is just as broken as you claim GSA to be.
