Subject: brenbot create custom messages
Posted by robbyke on Mon, 16 Apr 2012 19:04:03 GMT

id like to have my server report stuff to irc with the help of a brenbot plugin but i have not even slightest clue how id do that.

i can do the code messages in c++ but how can i make brenbot react to those.

id like to make it like the ssgm logging
