Also, about that ban. You're totally right! The ban is specific and can be evaded if he does contact his provider. Damn, now I have to call that 10 year old you keep referring to so he can write a new ban code for me.

Okay, I think you're on the correct track; however we can further improve upon this method:

Once you obtain his phone number CONTINUIOUSLY call him, thus tying up his phone lines and preventing him from contacting his provider.

PROFIT
