You might as well be a new member. You didn't post for nearly five years, and only showed up when my trolling brought you and your posse over to defend your mod's "honor" lol

"OMG BEER HALP ME CUZ I CANT DAFENCE MUHSALF"

You keep trying, but you fail so miserably. Just admit that you're a faggot - you can't defend yourself. Your ideas hold no merit. You're here because you're butthurt. You can't handle someone writing about you if you're unable to ban them or have your little Internet thug posse come help you. I've single-handedly shit all over each one of you and will continue to do so.
