
Subject: [SSGM 4.0 Plugin] Crates
Posted by [Xpert](#) on Fri, 06 Jul 2012 16:22:55 GMT

Yes there is a crates plugin already in SSGM but it lacks certain crates that many have seen in servers before. Some include the Kamikaze, God, Money Multiplier, Blown Fuse, Big Boom and more. I also edited the timer for the crate to spawn 1 minute after it's last pickup. In time, I plan on adding additional settings and also changing the PPAGE stuff to color messages so iRan can be happy

NOTE: I took out the gay Uber Wire Crate and replaced the Tiberium Death crate with a Tiberium Shield crate. There's too much death crap as it is.

CREDITS

Thanks to Black-Cell's original concept and idea for a lot of the crates.

DESCRIPTION

This plugin will allow you to replace those yellow boxes ingame with special crates. I added sounds to certain crate events so it won't be so plain and also extended information for the _CRATE SSGM header.

CHANGELOG

V1 - Release

Installation

Place this in the ssgm.ini plugins list of course. Below is what should be in your SSGM.ini for the crate settings.

[Crates]

```
; -----
; ----- Crate Related Settings
; -----
; -----
; NOTE: crates.dll plugin required
```

; EnableCrates=
;
; Decides if there will be ANY crates, both old and new, on the map.

EnableCrates=1

; EnableNewCrates=
;
; Decides if there will be new crates, if this is set to 0 and EnableAllCrates is set to 1, normal/old crates will spawn.
; New Crates turn those little yellow boxes into a lottery-based system that can help turn the tide of any game,
; and can lead to some pretty fun times.
; Crate log messages will use the "_CRATE" header.

EnableNewCrates=1

; AllowVehCrates=
;
; If set to 1, vehicles will be allowed to pick up crates. If new crates are disabled, this will always be set to 1.

AllowVehCrates=0

; Crate percent configuration.
;
; Controls crate percentages for all maps.
; If you want to disable a specific crate, set it to 0 or leave it blank. Make sure the total sum is 100, or SSGM
; will use its defaults.

Weapon=9
Money=9
Points=9
Vehicle=7
MoneyMultiply=4
BlownFuse=4
BigBoom=4
