iRANian wrote on Wed, 25 July 2012 05:46The smoke is thicker and whiter than pre-4.0 on minimum settings, but pre-4.0 if you set the details to low the smoke would be "less" then details set to high.

I've been playing with increased settings ever since I got my new computer last year in January, and I really hadn't noticed any difference, the smoke seemed just as thick to me. But after I got 4.0 I really can't see shit anymore in tank fights.
