What the braindead Person over me wants to say is that actually members of the modteam are allowed to swear/insult normal forum users and dont have to cool down while regular users not taking each shit comming of their shitty mouth gets put on mod approval. I indeed asked raven to delelte my account cuz there is no reason to post in a forum where trolls have the control over what \*they\* think is ok and what not. Its just as usual, do what the mighty US citizens say and u can stay, oh dear fight back the kiddies who are part of the team and u get put on mod approval. There is no point to further discuss this, as i said a few in jelly forums are still very mature people but the % of trolls and people who lack intelligence is way tohigh to stand up for ur own opinion. As usual. So no worries, we both can def. live without each other much better and now go fck urself or another way u might better understand Ethenal

a lot of words that explain the simplistic views of DJ-EYE-K

not sure if DJ realized it, but no one aside from Lisaa liked him in the slightest

anyone that actually read his posts or played with him realized he was a retarded waste of space

the whole "fighting back against the machine" thing is a bit inaccurate; he would just post random insults out of left field towards members that questioned him in the past (Iran, Ethenal, myself) it was neither relevant to the conversation, nor was it something he could back up he's not someone that can be disproved because he exists in his own reality, one where anyone that disagrees with him does not matter because they are just "trolling" him

in the "Most hated in Ren" poll, the only person to get more votes than DJ was Wilost0rm, and by one vote

DJ actually beat out 0x90, if that says anything

trolls? hardly; we're simply taking out the trash

go be a god in your own mind while sucking at Renegade in another community, because Jelly just flushed you out

someone quote this so DJ can read it; it's something he needs to see

ITT: I made DJ rage with one post

also, I had no idea that poll existed - funny how many people wanted DJ banned (but I guess they're all stupid immature idiot trolls LMAO)
