himselfd wrote on Sat, 15 December 2012 05:49Does anyone know of a good vps/dedicated server or is willing to host a renegade server for my clan we will be able to pay up to 20 dollars a month and idk the VPS I just bought is lagging like pure shit. Also is their any guide on how to reduce server lag?

Contact me on irc.sla-company.net we can try run something for you.
