I think Iran player by using 20 nicks just cheat with new name on all servers and that he might be the *cheat name removed*maker.

Currently on jelly right now, he has more than 140 kills and he does get mvp back by sniping everytime a GDI player gets above him.
He sniped 140 times with a HS. Even the best player in the world can't do this. Also his nick right now is "intherealworld" but he changes it a lot.
