like ack said if this game was a person it would barely register a heartbeat and instead of working together to save the game we love all you guys do is bitch at each other and make fun of each other and call each other out and hold grudges and talk shit. like jesus christ why not be nice to each other and work together to keep renegade fun? why do you think the game is mostly dead? it's because people see shit like that and don't want a piece of the drama. i've said it many times it's the fucking internet. why hold grudges? only reason you should ever hold a grudge on the internet is if you can't make friends irl srs. if renegade is your only social outlet what are you going to do when it's gone? i've told ethenal, xpert, liquid, kesler whatever that i would work with them but they can't give up a simple grudge. let it go and save this beautiful game we call home guys!! we can do it!!

zunnie and liquid and iran and aircraftkiller please make out and fix this renegade friendship.
