1) [threat.PNG](#), downloaded 544 times

The screenshot shows the Norton File Insight interface. At the top, a red banner with a white 'X' icon states: "This threat has been removed. No further action is needed." Below this, the file "tt-scripts-4.1 (1).exe" is listed with a document icon. The "Threat name" is "WS.Reputation.1". A "Details" section shows "Unknown Community Usage, Unknown Age, Risk Medium". The "Origin" section indicates it was "Downloaded from http://www.tiberiantechnolo..." with a green checkmark. The "Activity" section shows "Actions performed: 1". On the right, a "Show" dropdown menu is set to "File Actions", and the file path "c:\users\charlie\downloads\tt-scripts-4.1 (1).exe" is shown as "Removed". At the bottom, there are links for "Copy to Clipboard", "Restore", and "Options", along with a yellow "Close" button and the Norton by Symantec logo.
